City staff in attendance:

Delante Spencer Thomas

The meeting started with the Committee resuming its discussions from the March 3rd meeting. Similar issues were discussed.

Thomas came to answer questions the Committee might have about the legal requirements to make grants. He informed the Commissioners that this was the first time the City funded grants, so the CPC would be creating the process. The City would provide guidelines and the Law Department would help address concerns as they arose.

There was a tentative agreement that the CPC should keep grants under \$50,000, because that would allow the grant making process to go forward would not require approval from City Council.

No motions were passed or voted on during this meeting.
